

Milford Sports Center - Rich Gedman Baseball Academy

As the mother of 8 and 10 year old boys, we've attended various baseball clinics throughout the years, and have found the Rich Gedman clinic to be superior as far as skills taught. I was impressed the clinics were run in a high-energy, orderly, disciplined, yet fun and exciting way by Chris Colabello and Rich Gedman with assistance from others vs. places that bill top coaches and then you're left in the hands of high-schoolers.

All clinics teach the basics of hitting and fielding; at the Gedman clinic, my boys learned so much more. They absolutely loved the "line drive stadium" games played where the kids would make the play, they'd "freeze" and play would stop and it'd be explained either why the play was correct or how to improve the level of play which helped both boys raise their level of play.

Usually by the end of a clinic, the question I hear is "how many more times do we have to go" ~ at the end of both Gedman clinics all I heard was "can we do it again ~ LOVED IT!!". Both boys left the clinics with not only a higher level of skill, but a greater excitement and love for the game.

Thanks!
